Hardware Installation

1. Remove the lens cover.
2. Attach the camera lens (purchased separately) onto the focus ring and connect it to the Iris connector.
3. After adjusting the lens focus, use the supplied hex wrench to tighten the two set screws into the set screw holes on the focus ring to secure the lens.

Lens (purchased separately)
Web Browser (Internet Explorer)

1. Locate and open the Internet Explorer (IE) shortcut on the desktop.
2. In the address bar, type 192.168.1.168 (default IP address of the camera) and then press the Enter button.
3. You will be prompted with a pop-up window asking for logininformation, type in "admin" (default login name) and"9999" (default password)
