INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of NEXCOM International Co., Ltd.

PWCR24000028

Introduction

We have reviewed the accompanying consolidated balance sheets of NEXCOM International Co., Ltd. and its subsidiaries (the "Group") as at March 31, 2024 and 2023, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the three months then ended, and notes to the consolidated financial statements, including a summary of material accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and International Accounting Standard 34, "Interim Financial Reporting" that came into effect as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the following paragraph, we conducted our reviews in accordance with the Standard on Review Engagements 2410, "Review of Financial Information Performed by the Independent Auditor of the Entity" of the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As explained in Notes 4(3) and 6(7), the financial statements of certain insignificant consolidated subsidiaries and investments accounted for using equity method were not reviewed by independent auditors. Those statements reflect total assets, including investments accounted for using equity method, of NT$1,146, 595 thousand and NT$1,574,192 thousand, constituting 18% and 19% of the consolidated total assets, and total liabilities of NT$221,034 thousand and NT$423,243 thousand, constituting 7% and 10% of the consolidated total liabilities as at March 31, 2024 and 2023, respectively, and total comprehensive income (loss) of (NT$25,955) thousand and NT$23,877 thousand, constituting (232%)

and 19% of the consolidated total comprehensive income for the three months then ended, respectively.

Qualified Conclusion

Except for the adjustments to the consolidated financial statements, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries and investments accounted for using equity method been reviewed by independent auditors, that we might have become aware of had it not been for the situation described above, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2024 and 2023, and of its consolidated financial performance and its consolidated cash flows for the three months then ended in accordance with "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and International Accounting Standard 34, "Interim Financial Reporting" that came into effect as endorsed by the Financial Supervisory Commission.

Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
IFRS 18, 'Presentation and disclosure in financial statements'	January 1, 2027
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

IFRS 18, 'Presentation and disclosure in financial statements'

IFRS 18, 'Presentation and disclosure in financial statements' replaces IAS 1. The standard introduces a defined structure of the statement of profit or loss, disclosure requirements related to management-defined performance measures, and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Accounting Standard 34, 'Interim financial reporting' that came into effect as endorsed by the FSC.

(2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

(a) Financial assets at fair value through other comprehensive income.

(b) Defined benefit asset recognized based on the net amount of pension fund assets less present value of defined benefit obligation.

B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

(a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.

(b) Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.

(c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

(d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.

(e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

Note 1: The liquidation of the Company’s subsidiary, Nexcom Europe, was completed in October 2023.

Note 2: The financial statements of the entity as of and for the three months ended March 31, 2024 were not reviewed by the independent auditors as the entity did not meet the definition of a significant subsidiary.

Note 3: The financial statements of the entity as of and for the three months ended March 31, 2023 were not reviewed by the independent auditors as the entity did not meet the definition of a significant subsidiary.

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Significant restrictions: None.

F. Subsidiaries that have non–controlling interests that are material to the Group: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group’s entities are measured using the currency of the primary economic environment in which the entity operates (the “functional currency”). The consolidated financial statements are presented in “New Taiwan Dollars”, which is the Company’s functional and the Group’s presentation currency.

A. Foreign currency transactions and balances

(a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.

(b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.

(c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

(d) All foreign exchange gains and losses are presented in the statement of comprehensive income within ‘other gains and losses’.

B. Translation of foreign operations

(a) The operating results and financial position of all the group entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;

ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and

iii. All resulting exchange differences are recognized in other comprehensive income.

(b) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

(5) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

(a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;

(b) Assets held mainly for trading purposes;

(c) Assets that are expected to be realized within twelve months from the balance sheet date;

(d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

(a) Liabilities that are expected to be settled within the normal operating cycle;

(b) Liabilities arising mainly from trading activities;

(c) Liabilities that are to be settled within twelve months from the balance sheet date;

(d) It does not have the right at the end of the reporting period to defer settlement of the liability at least twelve months after the reporting period.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through other comprehensive income

A. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.

B. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:

The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at amortized cost

A. Financial assets at amortized cost are those that meet all of the following criteria:

(a) The objective of the Group's business model is achieved by collecting contractual cash flows.

(b) The assets' contractual cash flows represent solely payments of principal and interest.

B. On a regular way purchase or sale basis, financial assets at amortized cost are recognized and derecognized using trade date accounting.

C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognized in profit or loss when the asset is derecognized or impaired.

D. The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(9) Accounts and notes receivable

A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.

B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(10) Impairment of financial assets

For financial assets at amortized cost, at each reporting date, the Group recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognizes the impairment provision for lifetime ECLs.

(11) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(12) Leasing arrangements (lessor) — operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(13) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated cost necessary to make the sale.

(14) Investments accounted for using equity method

A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.

B. The Group's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligation or made payments on behalf of the associate.

C. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognizes the Group's share of change in equity of the associate in 'capital surplus' in proportion to its ownership.

D. Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.

E. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.

(15) Property, plant and equipment

A. Property, plant and equipment are initially recorded at cost.

B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.

D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures	5 ~ 50 years
Machinery and equipment	1 ~ 10 years
Office equipment	1 ~ 10 years
Leasehold improvements	1 ~ 10 years
Transportation equipment	2 ~ 5 years

(16) Leasing arrangements (lessee)－right-of-use assets / lease liabilities

A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.

B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the Group's incremental borrowing interest rate. Lease payments are comprised of fixed payments, less any lease incentives receivable. The Group subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

C. At the commencement date, the right-of-use asset is stated at cost comprising the amount of the initial measurement of lease liability. The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

(17) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 20 to 50 years.

(18) Intangible assets

A. Goodwill arises in a business combination accounted for by applying the acquisition method.

B. Intangible assets are computer software and patent stated at historical cost and amortised over their estimated useful lives of 1 to 10 years

(19) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(20) Borrowings

Borrowings comprise long-term, short-term bank borrowings and other short-term borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(21) Notes and accounts payable

A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.

B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(22) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(23) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(24) Provisions

Provisions (including warranties) are recognized when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date.

(25) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expense when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.

ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

iii. Past service costs are recognized immediately in profit or loss.

iv. Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for signif icant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. Also, the related information is disclosed accordingly.

C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognized as expense and liability, provided that such recognition is required under legal constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

(26) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognized as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognized is based on the number of equity instruments that eventually vest.

(27) Income tax

A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.

B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.

C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.

E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

F. A deferred tax asset shall be recognized for the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilised.

G. The interim period income tax expense is recognized based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

H. If a change in tax rate is enacted or substantively enacted in an interim period, the Group recognizes the effect of the change immediately in the interim period in which the change occurs. The effect of the change on items recognized outside profit or loss is recognized in other comprehensive income or equity while the effect of the change on items recognized in profit or loss is recognized in profit or loss.

(28) Dividends

Dividends are recorded in the Group's financial statements in the period in which they are approved by the Group's shareholders. Cash dividends are recorded as liabilities.

(29) Revenue recognition

A. Sales of goods

(a.) The Group researches and develops, manufactures and sells industrial personal computers. Sales are recognized when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.

(b.) Sales revenue arising from industrial personal computers is recognized based on the price that is made from negotiating with customers based on purchased volume and items. No element of financing is deemed present as the sales are made with a credit terms that are the same with the general commercial transactions, which is consistent with market practice.

(c.) The Group's obligation to provide a maintenance service for faulty products under the standard warranty terms is recognized as a provision.

(d.) A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

B. Service revenue

Service revenue arises from extended warranty and maintenance service. Revenue from delivering services is recognized based on the progress of the services to be provided when the outcome of services provided can be estimated reliably.

C. Construction contract revenue

The Group provides intelligent manufacturing solution engineering business, and the contract includes equipment sales and installation services. The equipment and the installation services provided by the Group are not distinct and are identified to be one performance obligation satisfied over time since equipment the installation services provided by Group involve significant customization and modification. The Group recognizes revenue on the basis of costs incurred relative to the total expected costs of that performance obligation or recognizes revenue on the basis of measurement on the value of the goods or services transferred to the customers so far. If the Group has recognized revenue, but not issued a bill, then the entitlement to consideration is recognized as a contract asset. The contract asset is transferred to accounts receivable when the entitlement to payment becomes unconditional. If the payments exceed the services rendered, a contract liability is recognized.

The Group’s estimate about revenue, costs and progress towards complete satisfaction of a performance obligation is subject to a revision whenever there is a change in circumstances. Any increase or decrease in revenue or costs due to an estimate revision is reflected in profit or loss during the period when the management become aware of the changes in circumstances.

(30) Government grants

Government grants are recognized at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes expenses for the related costs for which the grants are intended to compensate.

(31) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group’s chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1)Critical judgements in applying the Group's accounting policies

None.

(2) Critical accounting estimates and assumptions

Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value at balance sheet date, and writes down the cost of inventories to the net realisable value. Such evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of March 31, 2024, the carrying amount of inventories is described in Note 6(4).

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash

	March 31, 2024	December 31, 2023	March 31, 2023
Cash on hand and petty cash	$ 1,568	$ 1,348	$ 987
Checking accounts and demand deposits	1,088,698	1,297,086	1,327,249
Time deposits	425,600	399,165	-
	$ 1,515,866	$ 1,697,599	$ 1,328,236

A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. Details of the Company's cash pledged to others as collateral for the purpose of guarantee for bank's borrowing facility, customs guarantee deposits and performance guarantees, shown as 'current financial assets at amortised cost' and 'non-current financial assets at amortised cost', are provided in Notes 6(6) and 8.

(2) Notes and accounts receivable

	March 31, 2024	December 31, 2023	March 31, 2023
Notes receivable	$ 749	$ 2,565	$ 6,184

(18) Pensions

A.(a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Act, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its domestic subsidiaries contribute monthly an amount equal to 4% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is not enough to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company and its domestic subsidiaries will make contribution for the deficit by next March.

(b) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company and domestic subsidiaries have no right to participate in managing and operating that fund and hence the Company and domestic subsidiaries are unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value percentage of plan assets for the three months ended March 31, 2024 and 2023 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(c) The actuarial report showed that the Group had contributed sufficient pension funds. Thus, the Group discontinued contributing to the labor pension reserve funds temporarily from June 2021 to May 2022 in accordance with Labor Affairs Department, New Taipei City Government Letter No.1101223971.

B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(b) The Group’s overseas subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the local pension regulations are based on a certain percentage of employees’ monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations.

(c) The pension costs under the defined contribution pension plans of the Group for the three months ended March 31, 2024 and 2023 were $12,035 and $11,133, respectively.

(19) Share-based payment

A. As of March 31, 2023, the share-based payment reward plan of the subsidiary, Greenbase Technology Corp., was as follows:

Type of arrangement	Grant date	No. of shares granted	Vesting conditions/ restrictions
Employee stock options	2022.11.21	901,000	Stock options can be exercised during the period from February 21, 2023 to March 20, 2023 and unexercised stock option certificates will expire on March 31, 2023.

The aforementioned total fair value of stock options using Black-Scholes model was $3,397, and in the first quarter of 2023, the stock options recognized as expense amounted to $1,369.

(20) Share capital

As of March 31, 2024, the Company’s authorized capital was $1,800,000 (including 15,000 thousand shares reserved for employee stock options), and the paid-in capital was $1,412,265, consisting of 141,226 thousand shares with a par value of $10 (in dollars) per share. All proceeds from shares issued have been collected.

(21) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(22) Retained earnings

A. Under the Company's Articles of Incorporation, the current year's earnings (after appropriation of no less than 1% as employees' compensation and no more than 1% as directors' remuneration), if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve unless the legal reserve equals the total authorized capital. In addition, special reserve that has been appropriated or reversed in accordance with related regulations along with the beginning unappropriated retained earnings can be distributed as dividend provided that the appropriation is proposed by the Board of Directors and approved by shareholders during their meeting.

B. In order to meet future capital requirements and long-term financial plan, the Company takes into account the Company's business environment and growth stage. Every year, total distributed shareholders' dividends shall not be higher than 90% of the total earnings distributable, and cash dividends shall not be lower than 5% of total dividends. If the total dividends distributable is lower than $0.5 (in dollars) per share, the above restriction on ratio shall not apply.

C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

D. In accordance with the regulations, the Company shall set aside special reserve for the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.

E. The appropriations of 2023 earnings as proposed by the Board of Directors on May 8, 2024 and the appropriations of 2022 earing as resolved by shareholders on June 27, 2023, are as follows:

	2023		2022	
	Amount	Dividends per share (in dollars)	Amount	Dividends per share (in dollars)

Total exchange gain, including realized and unrealized, arising from significant foreign exchange variation on the monetary items held by the Group for the three months ended March 31, 2024 and 2023 amounted to $21,812 and $17,868, respectively.

Price risk

The Group invests in equity securities issued by the domestic and foreign companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, profit before income tax for the three months ended March 31, 2024 and 2023 would have increased/decreased by $748 and $803, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

i. The Group's interest rate risk arises from long-term and short-term borrowings and short-term notes and bills payable. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash held at variable rates. Borrowings issued at fixed rates expose the Group to fair value interest rate risk.

ii. At March 31, 2024 and 2023, if interest rates on borrowings had been 0.25% higher/lower with all other variables held constant, post-tax profit for the three months ended March 31, 2024 and 2023 would have been $353 and $544 lower/higher, respectively, mainly as a result of higher/lower interest expense on floating rate borrowings.

(b) Credit risk

i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortised cost.

ii. The Group manages its credit risk taking into consideration the entire group's concern. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings. The utilisation of credit limits is regularly monitored.

iii. The Group adopts the following assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:

(i) If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.

(ii) The actual or expected significant changes of customer operating results.

(iii) The existing or estimated adverse changes in operations, finance or economic circumstances that were expected to cause significant changes in the customer's ability to fulfil its debt obligation.

iv. The Group adopts the assumption under IFRS 9, that is, the default occurs when the contract payments are past due over 180 days.

v. The Group classifies customer’s accounts receivable in accordance with customer's types. The Group applies the simplified approach using the provision matrix to estimate expected credit loss.

vi. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:

(i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;

(ii) The disappearance of an active market for that financial asset because of financial difficulties;

(iii) Default or delinquency in interest or principal repayments;

(iv) Adverse changes in national or regional economic conditions that are expected to cause a default.

vii. The Group used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable. On March 31, 2024, December 31, 2023 and March 31, 2023, the provision matrix is as follows:

	Individual	Group				
		Not past due	Up to 90 days past due	91 ~ 180 days past due	Over 180 days past due	Total
At March 31, 2024						
Expected loss rate		0.03%	0.03%~0.04%	0.03%-50%	83.57%-100%	
Total book value	$ 102,303	$ 636,081	$ 91,228	$ 32,223	$ 48,701	$ 910,536
Loss allowance	$ 38,724	$ 161	$ 25	$ 9,223	$ 46,501	$ 94,634

	Individual	Group				
		Not past due	Up to 90 days past due	91 ~ 180 days past due	Over 180 days past due	Total
December 31, 2023						
Expected loss rate		0.03%~0.05%	0.03%~0.78%	0.03%-50%	60.29%-100%	
Total book value	$ 47,291	$ 729,531	$ 156,605	$ 42,988	$ 54,396	$ 1,030,811
Loss allowance	$ 38,594	$ 230	$ 27	$ 8,276	$ 43,036	$ 90,163

	Individual	Group				
		Not past due	Up to 90 days past due	91 ~ 180 days past due	Over 180 days past due	Total
At March 31, 2023						
Expected loss rate		0.03%-0.23%	0.03%	0.03%-50%	91.42%-100%	
Total book value	$ 329,789	$ 1,108,185	$ 144,397	$ 3,547	$ 50,079	$ 1,635,997
Loss allowance	$ 56,149	$ 295	$ 204	$ 1,591	$ 48,494	$ 106,733

Individual: Subsidiaries and accounts receivable that were individually material and have defaulted were individually estimated for expected credit losses.

Group: Other customers.

viii. Movements in relation to the Group applying the simplified approach to provide loss allowance for accounts receivable are as follows:

	2024 Accounts receivable	2023 Accounts receivable
At January 1	$ 90,163	$ 106,911
Provision for impairment	4,079	-
Reversal of provision for impairment	-	(142)
Effect of foreign exchange	392	(36)
At December 31	$ 94,634	$ 106,733

(c) Liquidity risk

i. Surplus cash held by the operating entities over and above balance required for working capital management are used and invested properly. The Group chooses instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom.

ii. The Group's non-derivative financial liabilities classified into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities.

Except for the following, the maturity dates of non-derivative financial liabilities comprising short-term borrowings, short-term notes and bills payable, notes payable, accounts payable, other payables and long-term borrowings expiring within one year are all less than 360 days as of March 31, 2024, December 31, 2023 and March 31, 2023.

Non-derivative financial liabilities:

March 31, 2024	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Lease liability	$ 86,778	$ 81,650	$ 178,634	$ 65,402

December 31, 2023	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Lease liability	$ 74,398	$ 71,272	$ 166,452	$ 74,320

March 31, 2023	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Lease liability	$ 76,854	$ 75,608	$ 194,389	$113,497

iii. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

B. Fair value information of investment property at cost is provided in Note 6(11).

C. The related information on financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at March 31, 2024 and 2023 is as follows:

On March 31, 2024, December 31, 2023 and March 31, 2023, financial assets at fair value through other comprehensive income categorised within Level 3 amounted to $49,256, $49,114 and $47,031, respectively.

D. The methods and assumptions the Group used to measure fair value are as follows:

The valuation of financial assets at fair value through other comprehensive income uses the most recent non-active market price, market comparable companies and the net assets value as their fair values (that is, Level 3).

E. For the three months ended March 31, 2024 and 2023, there was no transfer among each valuation level.

F. The following chart is the movements of Level 3 for the three months ended March 31, 2024 and 2023:

	2024	2023
	Equity instruments	Equity instruments
At January 1	$ 49,114	$ 44,801
Gains and losses recognized in other comprehensive income	142	2,230
At March 31	$ 49,256	$ 47,031

G. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value at at March 31, 2024		Valuation technique	Significant unobservable input	Relationship of inputs to fair value
Non-derivative equity instruments:					
Unlisted shares	$	457	Market comparable companies	Discount for lack of marketability	The higher the discount for lack of marketability, the lower the fair value
Venture capital shares					
Private placement shares (listed companies)		48,799	Net asset value	N/A	N/A

	Fair value at December 31, 2023		Valuation technique	Significant unobservable input	Relationship of inputs to fair value
Non-derivative equity instruments:					
Unlisted shares	$	457	Market comparable companies	Discount for lack of marketability	The higher the discount for lack of marketability, the lower the fair value
Venture capital shares					
Private equity fund investment		48,657	Net asset value	N/A	N/A

	Fair value at March 31, 2023		Valuation technique	Significant unobservable input	Relationship of inputs to fair value
Non-derivative equity instruments:					
Unlisted shares	$	457	Market comparable companies	Discount for lack of marketability	The higher the discount for lack of marketability, the lower the fair value
Venture capital shares					
Private equity fund investment		46,574	Net asset value	N/A	N/A

H. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorised within Level 3 if the inputs used to valuation models have changed:

			March 31, 2024			
			Recognized in profit or loss		Recognized in other comprehensive income	
	Input	Variation	Favorable variance	Unfavorable variance	Favorable variance	Unfavorable variance
Financial assets:						
Equity instruments	Discount for lack of marketability	±1%	$ -	$ -	$ 5	($ 5)
Equity instruments	N/A	±1%	$ -	$ -	$ 488	($ 488)

			December 31, 2023			
			Recognized in profit or loss		Recognized in other comprehensive income	
	Input	Variation	Favorable variance	Unfavorable variance	Favorable variance	Unfavorable variance
Financial assets:						
Equity instruments	Discount for lack of marketability	±1%	$ -	$ -	$ 5	($ 5)
Equity instruments	N/A	±1%	$ -	$ -	$ 487	($ 487)

			March 31, 2023

Note 1: The numbers filled in for the endorsements/guarantees provided by the Company or subsidiaries are as follows:
(1) The Company is '0'.
(2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between the endorser/guarantor and the party being endorsed/guaranteed is classified into the following seven categories:
(1) Having business relationship.
(2) The endorser/guarantor parent company owns directly and indirectly more than 50% voting shares of the endorsed/guaranteed subsidiary.
(3) The endorsed/guaranteed company owns directly and indirectly more than 50% voting shares of the endorser/guarantor parent company.
(4) The endorser/guarantor parent company owns directly and indirectly more than 90% voting shares of the endorsed/guaranteed company.
(5) Mutual guarantee of the trade made by the endorsed/guaranteed company or joint contractor as required under the construction contract.
(6) Due to joint venture, each shareholder provides endorsements/guarantees to the endorsed/guaranteed company in proportion to its ownership.
(7) Joint guarantee of the performance guarantee for pre-sold home sales contract as required under the Consumer Protection Act.

Note 3: The guarantee ceiling is calculated as follows:
(1) The Company's total guarantees and endorsements to others should not exceed 50% of the Company's net worth. Net worth is determined based on the latest audited financial statements.
(2) The guarantees and endorsements for a single party should not exceed 20% of the Company's net worth, except that the guarantees and endorsements for any single foreign subsidiary should not exceed 30% of the Company's net worth. If the guarantees and endorsements were made upon business relationships, the guarantees and endorsements should not exceed the total transaction amount (higher of the purchase or the sales between the two parties) for the most recent year ended.

Note 4: Fill in the year-to-date maximum outstanding balance of endorsements/guarantees provided as of the reporting period.

Note 5: The amount guaranteed by the Company to Nexcom Japan Co., Ltd., EMBUX Technology Co., Ltd., NexAIoT Co., Ltd. and NexCOBOT Taiwan Co., Ltd. was JPY 25,018 thousand, NTD 25,000, USD 2,500 and NTD60,000 thousand and NTD 60,000 thousand, respectively.

Tai Ying Investment Co., Ltd.	9,687	6.85%
Meng-Ying, Lin	8,976	6.35%
Mao-Chang, Lin	7,458	5.28%

Note: (a) The major shareholders' information was derived from the data using the Company issued common shares (including treasury shares) and preference shares in dematerialised form which were registered and held by the shareholders above 5% on the last operating date of each quarter and was calculated by Taiwan Depository & Clearing Corporation. The share capital which was recorded on the financial statements may be different from the actual number of shares in dematerialised form due to the difference in the calculation basis.

(b) If the aforementioned data contains shares which were kept in the trust by the shareholders, the data was disclosed as a separate account of the client which was set by the trustee. As for the shareholder who reports share equity as an insider whose shareholding ratio was greater than 10% in accordance with the Securities and Exchange Act, the shareholding ratio included the self-owned shares and trusted shares, at the same time, persons who have power to decide how to allocate the trust assets. For the information on reported share equity of insiders, please refer to the Market Observation Post System.
